🎯 Objective

To leverage my technical skills in Oracle APEX, SQL, PL/SQL, Database Administration (DBA), Oracle Forms, Oracle Reports, and front-end technologies such as HTML and CSS to design and develop secure, efficient, and scalable applications. I aim to contribute to organizational growth by delivering high-quality solutions that enhance business processes, support effective team collaboration, and ensure long-term system reliability.

🌟 Professional Experience

Software Developer

Elite Paint & Chemical Industries Ltd. || Jan 2026 – Present

- Develop and maintain ERP, HRMS & CRM applications.
- Design and develop SQL queries, PL/SQL packages, interactive forms, custom reports, and executive dashboards.
- Automate business workflows and operational processes.
- Implement data validation and database solutions.
- Analyze requirements and develop scalable solutions.

💡 Projects

3/2025 – 6/2026

● Sales & Distribution Management System

Designed and developed a full-featured Sales & Distribution Management System to automate and manage end-to-end sales operations. The system supports order processing, purchase, inventory control, customer management, payments, and financial tracking through an intuitive web-based interface.

Role : Led the team while developing the system, including UI/UX and ERD design.

Tools & Technologies :

- Oracle APEX (v26.1)
- Reports : Oracle Reports Builder & BI Publisher
- HTML / CSS for Custom Reports

Special Features :

- AI-Powered ERP Assistant with Real-Time, Context-Aware Access to Live ERP Data
- Due Collection & Customer Outstanding Management
- Real-time Stock & Inventory Tracking
- Expense Management System
- Advance Payment Handling
- Order-wise and Customer-wise Financial Summary

 [Explore Live Demo](#)

● School Management System

A comprehensive school management platform designed to streamline student, teacher, attendance, examination, fee, payment, and administrative operations. Built with a focus on data accuracy, workflow automation, scalability, and user-friendly management.

Technology Used :

- Oracle APEX (v26.1)
- HTML & CSS for Custom Reports

Special Features :

- Fast, class-wise attendance with automated summaries and reporting.
- Due tracking, partial payments, receipts, and financial history in one system.
- Flexible exam structures, result processing, and performance tracking.
- Key school insights presented through clear, decision-friendly dashboards.
- Designed to support future modules without disrupting existing operations.
- Strong validation and controlled workflows designed to prevent incorrect data entry.

 [Live Demo](#)

● Mess Management System

Mobile-first meal tracking application with daily entry, automated cost distribution, user-wise reports, and a clean app-like interface optimized for mobile input.

Tools & Technologies :

- Oracle APEX (v26.1)
- HTML & CSS for Custom Reports

Special Features :

- Fast, class-wise attendance with automated summaries and reporting.
- Due tracking, partial payments, receipts, and financial history in one system.
- Flexible exam structures, result processing, and performance tracking.
- Key school insights presented through clear, decision-friendly dashboards.
- Designed to support future modules without disrupting existing operations.
- Strong validation and controlled workflows designed to prevent incorrect data entry.

● Sales & Distribution Management System (Forms Based)

Developed a desktop-based Sales & Distribution Management System to handle end-to-end sales operations, including order processing, inventory control, and customer management. The system improved data accuracy, reduced manual work, and ensured smooth operational workflows in an enterprise environment.

Role: Led the team through system development, focusing on UI/UX and ERD design.

Tools & Technologies:

- Database : Oracle database 19c
- Frontend: Oracle Forms 11g
- Reports: Oracle Reports 10g

Special Features :

- Structured sales and inventory control system supporting order entry, stock adjustments, and customer records
- Real-time Stock & Inventory Tracking
- Purchase & Expense Management System
- Centralized data handling to maintain consistency and reduce operational errors
- Reliable reporting to support operational control and business analysis.

 [Watch Video Overview](#)

● Sales Web Application (Individual)

Developed a standalone Sales Web Application focused on customer-centric features and online sales interaction. The system provides an easy-to-use interface for product browsing, cart management, and customer accounts.

Technology Used :

- Oracle APEX (v24.2)
- Reports: BI Publisher
- HTML / CSS for Custom Reports

Special Features :

- Shopping Cart System
- Product Listing & Detailed Product View
- Customer Registration & Account Management
- Order Placement & Tracking
- Dynamic Sales Reports

 Professional Training

3/2025 - 12/2025

● Diploma in Oracle Database Application Development

IsDB BISEW IT Scholarship Programme

Modules	Description	Duration (Hours)
Module 01	Introduction to Computing	40
Module 02	Programming Practices & Techniques with Database Fundamentals	40
Module 03	Oracle Database 19c: SQL	140
Module 04	Oracle Database 19c: Program with PL/SQL	120
Module 05	Oracle Fusion Middleware 11g : Build Applications with Oracle Forms	120
Module 06	Oracle Report Developer: Build Reports	68
Module 07	Programming in HTML5 with JavaScript & CSS3	60
Module 08	Oracle Application Express (APEX 24.2v)	140
Module 09	Oracle DBA Fundamental	60
Total :		788 (Hours)

Academic Qualifications

Course	Subject	Institute	Duration	Passing	Grade
Bachelor of Science (BSc)	Physics	National University	4 Year	2022	2.63 out of 4.00
HSC	Science	Govt. Nazmul Smriti College	2 Year	2016	4.42
SSC	Science	Sanasivita High School	-	2015	5.00

Personal Statement

Father's Name : Shahidul Islam
Mother's Name : Rokeya Begum
Date of birth : 1st October 1998
Sex : Male
Marital Status : Single
Religion : Islam
Nationality : Bangladeshi
NID : 7804923949
Permanent Address : Gobindanagar, Nalitabari, Sherpur
